

Something challenging
Given each equation complete each table of values and then graph the relation. Is each a linear relation?

$y=-4 x-2$

| $x$ | $y$ |

| Problem Solving: | Sylvia works at a garden nursery. She is paid $\$ 6$ for every tray of tomatoes she plants. Let $n$ represent the number of trays she plants. Let $p$ represent her pay in dollars. The equation for her pay is $p=6 n$ <br> Create a table of values and then graph it. Describe the relationship between $n$ and $p$. |  |  |  |  |  |  |  |  |  |  |
