

Sci 9 Space Poster Project

Due May 28 Blks 2-2, 2-3 & 2-4 & June 4 Blk 1-1. A 10% penalty will be assessed per date late.

You may work alone with bonus marks possible, in pairs with no bonus mark possible, or with 3 in group and be penalized 15%. You must paraphrase text into your own words, and plagiarism will be treated according to the School regulations in the agenda.

Topics can be from Chapter 10, 11 & 12 plus

Cultural Myths or Practices related to sky

Calendars – lunar or solar

Exo planets, how they are found

Space ship technology – past, current and future

Ask, and ye shall possibly be approved if you can explain how it relates humans to the sky.

Only two groups per class may work on the same topic, in the event of a conflict, the group with the higher average Term 2 mark takes precedence.

Presentation 11" x 17" poster, Max 22" x 17" students may use cardboard or construction paper.

Must have a minimum of: 10 facts & 6 images on the topic, and each fact and/or image must be cited with each source properly referenced. Works cited shall include a minimum of 3 print sources, 2 database sources. No more than 3 facts or images may be from a single web site. Images must have a caption and attribution below each image, referring to the Works Cited.

Clarity of presentation	20%
Explanation of Relevance (why it matters..)	20%
and beauty counts	20%
Creativity is encouraged:	10%
Proper bibliography of images, facts & research	30%

(Two copies of Works Cited handed in, one attached to back of poster)

Some suggestions are that students use FlashDrive, GoogleDrive, Dropbox or your Email account to take work with you.
