# Example Text

A penny for your thoughts? If it's a 1943 copper penny, it could be worth as much as fifty thousand dollars. In 1943, most pennies were made out of steel since copper was needed for World War II, so, the 1943 copper penny is ultra-rare. Another rarity is the 1955 double die penny. These pennies were mistakenly double stamped, so they have overlapping dates and letters. If it's uncirculated, it'd easily fetch \$25,000 at an auction. Now that's a pretty penny.

## **Incorrect** Example Response 1

*This text is about pennies.*

- This response is too short.
- It does not include key ideas.

## **Incorrect** Example Response 2

*The 1943 copper penny is worth a lot of money. Copper was hard to get during the war so there aren't many of them. The 1955 double die penny is worth a lot too. These pennies were stamped twice on accident.*

- Too much unnecessary stuff.
- Main idea is not clear.

# Correct Example Response

*This text is about two very rare and valuable pennies: the 1943 copper penny and the 1955 double die penny.*

- Includes key information.
- Doesn't include unnecessary information
- Is a complete sentence.
