## **SOCIAL JUSTICE IN ACTION**

Passionate about human rights and civil liberties?  
Interested in instigating social change?

The BCCLA's annual Youth and Civil Liberties Conference brings together hundreds of high school students for an all-day conference featuring workshops that tackle issues ranging from anti-oppression, migrant justice, to know your rights, and marginalization in the law.

This year's theme will aim to unpack questions of power, systemic and institutional oppression, and provide students with the knowledge and tools necessary to take action and push for systemic and structural change.
