

Test all of chapter 4

To study → p. 201 - 203 #1 - 17
 Need more? Practice test p. 204

Topics to know for the test

→ writing equations to describe patterns.

4.1

$y =$

x	y
1	2
2	4
3	6

4.2 → linear relations → meanings / what they look like?

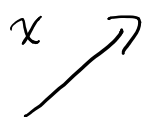

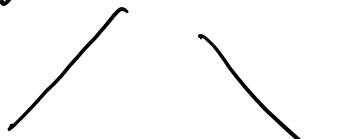

→ graphing, using tables of values.

4.3 → horizontal, vertical, oblique lines

$y = -$

$x =$

$y = mx + b$

$x + y = 5$

- positive / negative ...

→ positive / negative slope, zero slope,
undefined slope.

4.4

→ matching graphs / equations

→ Using graphs to estimate values

4.5

interpolate / extrapolate
