## John Oliver PAC Funding Request Form

Club/Team	JO Tech Ed 'After School Club'
Name	Chris Lee - Woodwork/ Youth Explore Trades Teacher
Email	cwlee@vsb.bc.ca
Teacher Sponsor(s)	Chris lee – Woodwork Ailin Wong - STEM/Robotics/Automotive/ Metalwork John Silver - STEM/ Automotive
Requested Amount	\$3920 (10 sets at \$390 including taxes)
Reason for request	The JO After School Tech Ed Club allows students to use the D-Wing shops (Wood/Metal/Robotics/Auto) with the support and supervision of one of the three qualified shop teacher sponsors to work on Robotics, personal projects and school projects. Recently students have been interested in developing their carving skills in projects such as spoon carving. Quality carving tools are very expensive, the 24 sets which we are working at procuring will allow students to sign out a 'complete set' in a leather holder and help teacher better manage their care. Prior to covid we had begun discussions of using the skill of carving as a way to better connect students to local indigenous cultures through hands on activities. Carving allows students who are not interested in machine use a different way to develop woodworking skills. A few years ago, The Tech Ed Dept invested in a top quality sharpening machine (Tormex Sharpening system) to help maintain our current lathe and carving tools. Currently we have a very limited amount of carving tools and are over due to return tools on loan from Van Tech Tech Dept.
Fundraising activities you have done	Ms. Corrine Kinnon has reached out on our behalf to Chas Desjarlais (District Principle Indigenous Ed & David Delorme VP Indigenous Ed. They have offered \$500 of cultural funds  Chris Lee is in the process of applying for funds from CLICK (Contributing to Lives of Inner City Kids) at the suggestion of David Delorme  Students in past years have completed unfinished serving tray projects and sold to Real-state agent for fundraiser (see sample) \$600 raised
