

Physics 12
M. Lam

Get to Know You

Name:

Block:

Instructions:

- Answer the following questions by hand or on the computer.
- At the top of the page, include your full name and a recent photo of yourself (e.g. student card).
- Include both the questions and your answers in your submission.
- When you are finished, please save your assignment as a PDF and submit it on Teams. How to save a document as a PDF: [Windows](#), [Mac](#).

Questions:

1. Have you completed Physics 11 or an equivalent course with a passing grade? If so, who was your teacher and what was your grade (approx. percentage, if known). If not, explain why you are registered for Physics 12.
2. Why did you choose to take Physics 12?
3. How do you like to learn? What would your ideal class be like? (Things to think about: labs, lecture, notes, online material, technology, textbooks, homework, projects)
4. What are some of your hobbies and/or interests?
5. What is something about yourself that is unique to you in this class?
6. What is one question (or more) that you have at the moment?
7. Is there anything else that I should know about you?

This assignment is worth 1 mark. **If your assignment is not submitted as a PDF file, you will receive a zero.**
