LEADERSHIP 11 & 12

COURSE OVERVIEW:

This course focuses on both leadership theory and practical applications. Students will develop leadership knowledge, skills and sensitivities while participating in classes, workshops and leadership project work. Through the study and practice of leadership, students will learn to lead effectively and become meaningfully involved in their school community. The Leadership 11 & 12 courses' main objective is to provide service and leadership to the school community. Students will be engaged in a variety of leadership pursuits and experiences as they *learn*, *explore* and *understand* the meaning and art of leadership.

BIG IDEAS:

Personal Awareness & Communication	Developing leadership skills allows development of core competencies	Building relationships and connections within our community.	Developing and using leadership skills to build community	Community Outreach Reflecting on experiences, growth opportunities and personal success and failures is an important part of being an effective leader
------------------------------------	--	--	---	---

COURSE OBJECTIVES:

Students will be able:

- Understand and apply the leadership process in their school community.
- Focus on their personal growth and development as they learn effective leadership skills.
- Learn and practice the concept of teamwork when organizing a variety of events and projects.
- Provide service to students, staff and administration as effective leaders, facilitators and mentors.
- Develop and build school spirit through active participation and involvement in school events and activities.
- Be involved in the "spirit of giving" by organizing fundraising activities and events for various charities.
