BENEFITS OF ODYSSEY

Odyssey provides acceleration of courses in Science and Math, providing opportunities for delving deeper into areas of passion in senior grades. Students go through many of their classes as a cohort, creating lasting connections and friendships throughout the school community. There are also many opportunities for student achievement in Math and Science contests.

ABOUT

The David Thompson Odyssey Program challenges highly motivated, creative achievers. The program offers acceleration in Math and Science so that students complete the Grade 8-10 curricula in two years while the English and Socials programs focus on enrichment. Acceleration provides choice and flexibility, which allows students to tailor their education to meet their individual needs and goals. Under the guidance of the program coordinator, subject teachers, and counsellors, students can choose from a variety of Advanced Placement courses and electives in grades 10-12.

PROGRAM HIGHLIGHTS

Students participate in various field trips including dragon boating and lab work at universities. These events and more create a close knit community across Odyssey students of all grades. Science fair is also a big part of Odyssey, with many scholarship and networking opportunities, as well as learning expansion in fields of STEM that students are passionate about.

IMPORTANT DATES

NOV 14 - DEC 21, 2023

Register student in VSB Mini School District Registry and submit application for DT Odyssey

DEC 21, 2023

Deadline for submitting applications for DT Odyssey at 3 PM

JAN 12, 2024

Student assessment test from 3:30 PM to 4:30 PM

FEB 1, 2024

Selected applicant interviews from 8:30 AM to 12 PM

FEB 28, 2024

First round offers to students around 9 AM

MAR 1, 2024

Deadline for student acceptance to first round offers by 12 PM

MAR 6, 2024

Second round offers sent and deadline for acceptance
